

RNS Redevelopment: Access to Buildings 7, 8, 9 and 10 now via Herbert St ONLY

Construction work has begun on the new main hospital and there have been major changes on the campus.

Access to Buildings 7, 8, 9 and 10 is now via Herbert Street ONLY.

There is no longer any pedestrian access via the old covered walkway past Vindin House. The temporary car park near these buildings is also closed for redevelopment.

If you have an appointment in one of these buildings, please go via Herbert Street.

Please remember, site parking is very limited.

If you are parking in the multistorey car park, you will need to walk down Westbourne St to Herbert Street for access to the Buildings 7, 8, 9 and 10. This walk has a steep gradient and may not be suitable for disabled people. If you need disabled access, please contact your clinic to check the disabled drop-off arrangements.

The bus stop and taxi rank are located on Reserve Road.

From St Leonards Railway Station, please follow the signs to Herbert Street for entry to Buildings 7, 8, 9 and 10. Or walk via Pacific Hwy and Reserve Road for main hospital, Douglas Building (Emergency Dept & Maternity), Reserve Rd buses and taxi rank.
